A JOURNEY THROUGH TIME

Greensboro College
815 West Market Street
Greensboro, NC 27401

DEDICATION

The 1997-1998 Echo Yearbook Staff had a very important decision to make in August 1997. This decision, although important, was a very easy decision for the staff. The 1997-1998 Echo Yearbook, *A Journey Through Time*, is proudly dedicated to someone who had dedicated more than 30 years of service to Greensboro College.

Professor Edward O. Coleman Jr. joined the faculty of Greensboro College in 1967. He received his bachelor's degree and master's degree from the University of South Carolina, and is currently associate professor of English. In his time at Greensboro College, Professor Coleman has received virtually every major faculty award including the Greensboro College Alumni Association Outstanding Teacher Award in 1981-1982, The Moore Professorship in 1987-1988 and the Sears-Roebuck Teaching Excellence Award in 1990. Most recently, September 1997, Professor Coleman was awarded the Exemplary Teacher Award. The criteria for this award are: excellence in teaching; civility and concern for students and colleagues; commitment to value-centered education; and service to students, the institution, the community or church.

These criteria have definitely been met by Professor Coleman. He is respected not only by the faculty and staff at Greensboro College, but also the students. Students who have the opportunity to take one of Professor Coleman's English courses are lucky. Even students who do not take an English course with Professor Coleman know him and his outstanding reputation. He is a concerned and caring professor who is always willing to help when needed. Professor Coleman's "journey through time" at Greensboro College will forever be important to GC students, faculty, and staff.

STUDENT LIFE

Campus Connection

On August 15th, 16th, and 17th of 1997 twenty freshmen were selected to join Jeanine Falcon and her staff on a three day retreat at the Summit Retreat Center. During the retreat these student leaders had to work together in situations where communication and organization were key in solving problems. When the retreat was over, it was time to take what they had learned and spread it throughout Greensboro College. "A memory of Campus Connection I have was during an Icebreaker in which we all sat down together and shared personal feelings about ourselves," commented Peter DeMarzo.

PRECIS

Precis is quickly becoming a Greensboro College tradition for all new students at GC. This year Precis was held from August 20 to August 22 at the YMCA Blue Ridge Assembly Center in Black Mountain, NC. Precis began several years ago and has continued to be a huge success. The main purpose of Precis is to allow new students to get to know each other in a relaxed setting before beginning classes. Participants are placed into small groups in order to begin this interaction. Once students return to campus they are prepared to begin their college career and have the confidence to succeed.

MOVE IN

Move in day is for many, an exciting and new experience. For others who have already experienced it, they are less apprehensive. This day brings new people, new rooms, and new memories all together at once. For all move in day was hectic and full of emotions. Greensboro College would be their home for the next year and no one really knew what it would bring. "What was to come of this year?", was the question in many minds this particular day. This day holds memories for everyone whether it be funny, sad, or just a great experience.

LEFT: Even President Williams welcomes everyone to the family of PRIDE on moving day.

INTRAMURALS

Intramurals is a great way for just average students to play the sport that they love. This year Israel Reynolds, intern to the athletic director, organized intramurals. Events included, a 3 on 3 basketball tournament, flag football, and some students even went skiing. Count Pettaway said, "I thought that the 3 on 3 was very well organized...I wish we could have had 5 on 5, but it was still fun. I think that Israel Reynolds did a great job with the music, better than I expected it to be." All of the events were a blast. Many students believe that we should have a lot more each and every year.

FAMILY WEEKEND

On the weekend of September 26-28 of 1997, Greensboro College held Family Weekend. It is a time when the students of GC all invite their parents to the campus for a weekend filled with family fun.

On Friday night the Show Choir led a wonderful performance in Fowler Dining Hall during dinner. Among other events on Friday was the theater's performance of *A Doll's House*. Saturday was filled with many events including the football game versus Ferrum College, and the Women's Soccer game against Washington and Lee University. One Freshman, Tom Sawyer, said, "I really liked the fact that my dad stayed in the residence hall with me."

HOMECOMING ACTIVITIES

Homecoming week is a time always remembered at Greensboro College. It is a week of fun, games, and togetherness. Homecoming this year was held on October 20th through October 26th. The theme this year for homecoming is "The Pride Rocks the Jungle."

Different activities that took place during this week were a banner contest, parade, a cook-out and the crowning of Homecoming Queen and Big Man on Campus.

HOMECOMING GAMES

Along with the fun and exciting activities that took place on campus, an anticipated tradition takes place when many students and faculty watch the women and men's soccer game. Well, this good old tradition was complemented this year with its first football Homecoming game. All three games took place Saturday, October 25th. Both women and men's soccer played against Christopher Newport University, and both women's and men's team from GC defeated Newport. Later that afternoon the football team played against Newport News Apprentice. GC was defeated 27-30. For the team's first Homecoming game the PRIDE accomplished a lot.

HILL HALL

Living in Hill Hall is quite an exciting experience. This particular residence hall is coed. Hill Hall is a unique set-up. Residents have suite-style rooms. It is the closest resemblance to family that a student can find away from home. Andrea Boddi, a freshman, said that she considers Hill Hall to be "quiet, reserved, yet a fun place to live." Also, Hill Hall has a council that meets to plan activities that go on throughout the year involving Hill Hall. Anyone that lives in Hill Hall can be on the council. Some activities that were scheduled for this year were the Hill Hall Holiday Mixer, a health clinic, and an Ice Cream Social during the week of exams.

GREENSBORO BUILDING

Greensboro Hall is a special place to its residents. It is known as the get-together hall. Being an all girls residence hall, socializing is a must. The residence hall is famous for it's late night gatherings in the hall, where everything is discussed from what kind of makeup you're using to what guy you're dating. Greensboro provides a close-nit place for girls to come home from classes, athletic events, and work to get together with friends. It provides the girls with a home away from home. Each floor works together on hall projects. These projects not only bring the girls closer, but the Greensboro College community closer together as well.

WEST HALL

West Hall is the only all male Residence Hall at Greensboro College. The Residence Hall Director is Guy Stuart. There are many great reasons for living in West like, Internet access, a 24-hour study lounge, and an abundance of television channels to surf.

During the year West Hall residents, are able to join the West Hall Council. As a member of West Hall Council students plan activities for the residents of West Hall. Activities planned this year were a student mixer, pay-per-view specials along with other student activities. Residents in West Hall have great PRIDE in West.

ROAD TRIPS

Road trips can be very exciting! Greensboro College students always seem to be going somewhere to have fun. Throughout the year GC students take a little bit of time off from their studies to try and relax some. Some people go home, to the beach, camping, or even sporting events. Just as long as students can get away for awhile is usually fine with them.

Road trips can also be fun with your sport teams. Just going away and representing GC is a ball. Students get to stay in hotel rooms, eat out, and have fun with their coaches and teammates.

INTERNATIONAL STUDENTS

Imagine being thousands of miles and oceans away from your home. For some students at Greensboro College, this is their reality. Four such students are Kevin O'Reilly, Sean McCusker Esquire, Jim McElvanna, and Heather Logan, who are all taking a year off from their studies in Northern Ireland. Sevara Melibaeva is a student from Uzbekistan. International students encounter a different way of life when they come to America. All agree that since coming to the states, they have made many friends. All four students from Ireland plan to return home at the end of the year.

HOLIDAYS ON CAMPUS

With such a diverse student body, holidays celebrated on campus range from Halloween to Hanukkah. Halloween is celebrated with many parties and costumes. At Christmas, there are many events such as the Hill Hall holiday mixer, cookie baking at Dean Frank's, and the Angel Tree celebration. The holiday mixer was lots of fun, while the Angel Tree celebration was an outreach to the community. "I have a stuffed menorah that I put on my TV," Becky Osmunson said, when she was asked how she celebrated Hanukkah. CDC and Los Amigos made celebrating Valentine's Day on campus easy.

Career Center

An important question many students ask is how am I going to find work during my time spent at Greensboro College? Students quickly find that the answer lies at the Career Center. The Career Center helps students look for jobs, make up resumes, and find internships related to the students' studies. The Career Center carries computer programs for students to utilize to find careers of interest and scholarship information. A major program that the Career Center takes part in is Reality Check. Reality Check is a program set up for juniors and seniors that explains the reality that students are graduating and soon go out in the career world.

MLK, JR. DAY

On January 15-23, 1998 Greensboro College celebrated its annual Martin Luther King, Jr. Celebration. All events are free and open to the public. The celebration began with a chapel service in honor of Dr. King's birthday. Activities included a lecture by the author of "They Closed Their Schools," followed by a reception and book signing. Then, the touring Theatre Ensemble of NC presented "Let My People Go."

The most moving event of this week belonged to the Candlelight Vigil celebrated Tuesday 20 around the fountain on front campus. Following that was a "Free Your Mind" forum sponsored by the Celebrating Diversity Club and United African American Society at Greensboro College.

LEADERSHIP

GC encourages students to recognize they are leaders and provides students with opportunities to develop leadership skills. Emerging Leaders, Orientation Leaders, Bryan Service Leaders, Precis Leaders, and Resident Assistants are several of the many groups on campus that focus on leadership. "Emerging Leaders is a group that gives students a chance to learn more about themselves and to find leadership qualities they never knew they had," says Kevin Ward, an Emerging Leader. Orientation Leaders work with new students to orient them with GC and get them comfortable with college life through programs such as "edutainment." The Resident Assistants are the leaders who help new students settle into residence hall life and assist returning students with other needs.

WINTER ROSE

During the month of February a special event takes place for the students of Greensboro College. Students look forward to dress in their best for the Winter Rose. Winter Rose took place February 13, 1998 in the top floor of the Jefferson Pilot Building. The students enjoy hours of fun, laughter, and dancing as they get a chance to get together with other students. Winter Rose is another event that C.A.B. sponsors during the spring semester. "It was wonderful to see a variety of faculty, staff, and students come together from so many parts of campus to celebrate the evening in style," commented by Amy Radford.

Angels Among Us

Angels come to us in many ways. We generally experience angels through people. Whether it be our closet friend, our parents, our grandparents, our teachers, or our mentors. Angels are special people that come into our lives and help guide us through everyday obstacles and achievements. We look to our angels for support and understanding.

WELCOME TO POOH CORNER

Why does everyone like Winnie-the-Pooh?

Everywhere you look this year there is Pooh, Piglet, Eeyore, Tigger, and the other characters. Students are decorating their rooms and doors and wearing clothing with Pooh and his friends. Everyone seems to have their favorite Pooh too. Some students like Pooh in his little red shirt, while others prefer the Classic Pooh. Students have window clings, beanie babies, posters, and stuffed Winnie-the-Pooh characters. What's most fascinating, though, is that Pooh isn't just a girl thing, it's a guy thing too.

Living Off Campus

There are few upper level classmen at Greensboro College who have the opportunity to spend there residence life living off campus. There are two GC off campus housing. These places are the University Square and Campbell House. Students who are of off campus living are able to experience what it is like not living with house rules. Students seem to enjoy this new experience. Being able to live off campus gives the feeling of more independence. However, these students have smaller extra expenses plus students have a tendency not to get a lot of what the word is on campus.

BREAK FOR SPRING TIME

Spring Break is a time for everyone to just take a load off and rest for a couple of days. Resting could mean many of things for all people. For some resting is at the beach, others just time spent at home. But no matter what, breaks are usually done with friends and/or family. Spring Break lets everyone forget about school and all the hard work that they put in their school work here at Greensboro College.

Here at GC, Spring Break is not all fun and games for everyone. It is a time to forget about school for a little while and just take a little break for yourself and most of us really deserve one. No matter what a student spends their time doing over Spring Break, they always come back with plenty of memories to share.

ABOVE: These are just a couple of necessities that many students need over Spring Break.

UNDERGROUND

Greensboro College has tons of entertainment going on all the time. Of course, there are sporting events, plays, and clubs. But many clubs try to bring entertainers to GC. Most of the entertainers are comedians, singers, magicians, movies, and even some game shows. All of these exciting events usually occur down in the Underground. It is like your own private showing of entertainment right here at GC. So, come and join in the fun and games, down in the Underground.

SPRING FLING

Spring Fling at Greensboro College is an event that all students and faculty look forward to see. Not only does it mark the end of another school year but it is a chance for everyone to let loose and have fun. Such events that took place in the festivities were spin art, pie throws, yard sales, jello wrestling, musical talents, water balloon tosses and much more. This year Spring Fling hosted Children Celebration Day which was held the Saturday of Spring Fling. Children as well as their parents were welcomed to the college to join with the students and faculty for a day of celebration.

ORGANIZATIONS:

Echo Yearbook Staff

The Editor-in-Chief for the 1997-1998 Echo staff was appointed in the Spring of 1997. Jennifer Anne Moore began then setting deadlines for the upcoming year. Once school began in August the staff was formed and staff members were able to get class credit as they helped with the 1997-98 Echo. The staff had meetings once a week to assign articles for various deadlines and catch up on the week's events. The yearbook staff is a group of hard working and very dedicated students at GC. They work very hard to ensure the history of Greensboro College is preserved for future generations to enjoy and learn about.

Peer Awareness With Students

PAWS (Peer Awareness With Students) had a terrific year of events. PAWS serves this campus by addressing students' peer pressures and difficulties that face this and every campus. In November members attended the National Bacchus and Gamma Conference in St. Louis, Missouri. Six members and advisor Amy Radford, joined other peer educators from across the United States. During the conference the PAWS chapter won "Outstanding Affiliate for Schools 4,000 and Under" and President, Sarah Watkins was elected to the Student Advisory Committee for Area 12. PAWS provides students with the opportunity to express themselves in a safe and open environment.

Student Christian Fellowship

Student Christian Fellowship brings the feeling of peace, fellowship, and fun. During the year SCF sponsors several events. These events include a Halloween party for the local children and traditional caroling and cookie-baking party. The club also enjoys going on a fall retreat in the mountains, skating trips, and a spring retreat to the beach. But most of all SCF is a safe setting, and people are comfortable sharing personal aspects of their lives with the group. It is also a source of support and friendship. When you leave a meeting with SCF you leave feeling peaceful, refreshed, and ready to face the stress of school with God's help.

The 1997-1998 academic year was very exciting for the former Marketing Club. The club, with 15 charter members became a chapter of the American Marketing Association. The club worked with a local inventor and created a marketing plan for him for community service. They also sponsored a Super Bowl Ad Party in which members watched the much anticipated advertisements during the Super Bowl. The club was very lucky to once again to have Dr. Hanson as their advisor.

Celebrating Diversity Club

Celebrating Diversity started out the year great. The club participated in Club Carnival and got our name out to new students. CDC also got involved with the homecoming events and joined in the parade. They have sponsored a discussion panel on homosexuality in the Bible. Greensboro College and UNCG students both participated in the discussion. In the beginning of second semester was spent working on a committee for Martin Luther King activities. They also did their annual program called Free Your Mind and held a discussion on how we felt about racial issues. CDC also has got involved in the In Your Face program. CDC has had great success with the programs they have done on campus.

Biology- Medical Careers Club

Our club is open to anyone. You don't have to be a Biology major to join. Don't let the name of our club fool you; we deal with all aspects of biology, not necessarily just medical related issues. Ecology, botany and zoology; you name it, we got it. We started off the year paddling for our lives as we relived the classic movie "Deliverance" on the Nantahala River. Trying to make a lasting impression at the Homecoming parade, we brought the jungle to GC. Spring semester we actually lived up to our name by taking a tour of the "elite" Bowman Gray hospital. Finally, volunteers allowed us to make a killing at our biannual blood drive, one each semester.

Greasepaint and Halos

Greasepaint and Halos is a special Christian organization. The members enjoy dressing up as clowns and performing skits. The members get to share their faith through performing these skits. They get to speak by actions instead of by words. These skits are performed to a wide variety of people. These people include the Greensboro College campus as well as the surrounding Greensboro College community. Greasepaint and Halos' members are just fools for Christ and they show it.

Student Athletic Trainers

Greensboro College athletics have a long tradition of success, but that success has not happened without the help of the student athletic trainers. These trainers work under the guidance of Chris Groh and Kelli Sheffield. Responsibilities of student athletic trainers include giving treatments to athletes, covering all practices and games, and various other duties assigned by the certified trainers. The main responsibility of all the trainers is the prevention of injuries. In keeping the athletes healthy the trainers accomplish their goal. These students spend many hours together and the student trainers consider themselves a team. This philosophy keeps success in all they do.

Pure Pride

Pure Pride involves a group of individuals that got together to show off their dance skills and their PRIDE for Greensboro College. Under the direction of the President, Marsha Denton, Pure Pride entertains students at various school activities. The purpose of the organization is to increase school spirit and attendance at various sporting events and other school functions. Pure Pride mainly dances at basketball games, but with the addition of Football they added another sport to their schedule. Members of Pure Pride are interested in encouraging students to show their PRIDE at Greensboro College through dance improvisation and performance.

Students In Free Enterprise

Students In Free Enterprise is not just an organization for students enrolled in Accounting, Business, and Legal Administration courses. It aims to increase business and free enterprise awareness on the campus of Greensboro College and in the local community. Members of S.I.F.E. also have an opportunity to increase their knowledge and experience through association with members of the local business community. Some of the activities S.I.F.E. is involved in are the annual student auction, kids voting, junior achievement program, wall street project, and NC Star. Also, every year S.I.F.E. competes in Atlanta for prize money.

United African American Society

The United African American Society (UAAS) strives to encourage appreciation of the African American culture and to unite the student body of Greensboro College. UAAS had a successful year with involvement in various activities. Among some of the projects accomplished this year was UAAS participation in the Homecoming banner and float. UAAS also held a "Groovin' to the Oldies" dance during family weekend. The club participated in the "Winter Walk for Aids," and put drain markers on community drains to prevent pollution. UAAS also hosted an African American Trivia Bowl and sponsored an educational trip to the Martin Luther King Center in Atlanta. UAAS has had a very exciting and enjoyable year.

Student Government Association

The Student Government Association is responsible for voicing the students opinions. It is a group responsible for representing student interests and decisions. This group is a group of responsible students that represents the student body of Greensboro College. The club involves serious issues with the faculty, staff, and administration of the college. The Student Government Association is a very important association for Greensboro College. This way the students also get a say in what is going on with the college.

ACADEMICS

Convocation

Every semester, Greensboro College opens with a formal assembly at an academic convocation. During the convocations, students are recognized for their academic achievements. This year the Fall Convocation was on Thursday, September 4, in Finch Chapel. The chancellor at N.C. A&T State University, Edward B. Fort, was the featured speaker. The most exciting part of the service was the Senior Investiture ceremony. This is a time for seniors are presented with a medallion which will be used as part of their academic regalia at both the Cap and Gown/Baccalaureate and Commencement exercises in May. Spring Convocation this year was on Thursday, January 22 in Finch Chapel and was a Founder's Day celebration. It commemorated the chartering of Greensboro College on December 28, 1838.

P.E. & EDUCATION

Preparing teachers with a good liberal arts education is an institution-wide function at GC. Yon Stevens, a senior Sports and Exercise Science major with a Sports Behavior Concentration, says that he chose his major "to educate people in society about the mechanics and fundamentals of physical education." Melissa Morton, a senior Elementary Education major, says, "teaching has always been a part of my character, and the influence of my teachers has created the desire for me to go into the profession." Melissa said, when asked what she liked most about the GC Education program, "I feel I have a strong foundation and that I'm going into the field with practical experience."

ENGLISH & FOREIGN LANGUAGE

Learning and understanding the English language is an area of academics Greensboro College takes great PRIDE in. English professor, Dr. Judy Cheatham, said, "Our jobs as teachers are to make students the best they are, to make them literate human beings." Another area of interest at GC is the Foreign language department. Students have the opportunity to learn how to speak and write in many areas like, Spanish, French, German, and Greek. Foreign language majors are numerous at GC. Angelia Houston, a French major, said, "I chose to major in French because I feel it will help me in my career in international business."

Religion and History

Religious life at Greensboro College addresses the historic United Methodist concern. Our emphasis on spiritual formation through a balanced program of classroom instruction and life experiences enables us to prepare young men and women as leaders with vision of values. Andrea Caldwell, a freshman, says, "There is a great deal of religious diversity on this campus." Another academic discipline at GC is History. The History department at GC includes World and US History. History is a discipline in which everyone needs to know.

SCIENCE, BUSINESS, & MATH

From examining specimens under the microscope to dissection. Greensboro College students use a variety of ways to discover the world around them in our Science department. Discovering many different ways to learn about the economic world is the goal for the Business department at GC. The selections allow students to get a "taste of the real world." The Math department has many diverse talents, from calculating equations to drawing conclusions. Everyone pulls together to make it the best at Greensboro College.

Social Sciences

Greensboro College offers many academic divisions. One of the divisions is the Social Science division. This division includes Political Science, Psychology, Sociology, and Legal Administration. The students majoring in this division regard it very highly. In fact Renee Metzger says, "Sociology is the best thing to come along since sliced bread." Renee is a Senior Sociology major and she says she loves Sociology. Jenny Moses says, "Psychology is more than a bowl of nuts. This is a division that students enjoy."

Fine Arts

Everyone at Greensboro College knows about the fantastic theatre and music productions. But, did you know there are classes available to those of us who might not have natural talent? Each student is eligible to take classes in art, ceramics, photography, drama and music. These classes offer an overview of the subject but do not require previous experience.

Greensboro College is lucky to have such talented fine arts professors. They are available to teach classes for non-arts majors. Even if you can't draw a straight line, you can get your hands messy in Bob Kowski's ceramics classes or learn about music in Jane McKinney's classes. Art buffs may enjoy Jim Langier's Intro to Visual Arts. If you happen to have free time and need to fit in an elective, why not try a fine arts class?

Class of 1998

May 10, 1998 was a very exciting time for the 1998 graduates. Commencement was held at the Special Events Center at the Greensboro Coliseum due to rain. But that did not stop 148 Seniors from walking and getting their diploma. This year the guest speaker was Carter Pate. He is a 1976 graduate of Greensboro College. The student speaker was Eugenia Houston. She was the Senior Class Vice-President. Both of these speakers did a wonderful job and inspired the graduates to pursue their dreams. Commencement is a day to realize that all the hardwork has finally paid off and it is a time to start a whole new beginning in life. Commencement is a day that will be remembered always. Congratulations and Good Luck to All Graduates!

THE NEVER-ENDING JOURNEY

There are so many people I need to thank for making the 160th volume of the *ECHO* possible. My journey at Greensboro College has been unbelievable. I was shy and unsure of myself and my abilities but GC changed all of that!

I would like to thank my extraordinary staff. You guys are the BOMB! It was so reassuring to know that I could count on deadlines being met and not having to do everything by myself. I would like to thank Ginger and Ailene for working those late hours in the office finalizing layouts and having our gossip sessions. I would also like to thank Jeanine Falcon for all her support and encouragement during some of the low points. You are awesome Jeanine and GC is lucky to have you! To Jennifer Brown I thank you from the bottom of my heart for taking on a task that no one else on campus was able to do! As our advisor, you not only helped us get pictures as we struggled to meet a deadline, but you also supported us in our effort to preserve Greensboro College's history. Thank you! Caroline Hanes in Student Activities was always there to find out the answers to my questions and just smile when I was not having the best of days....for that I will always be thankful!

I would like to thank my parents most of all for their unconditional love, never-ending support and all the steak dinners. You are the best and without you and all the things you have taught me to believe in I would not be here today. You were always there to encourage me and still are. Words could never express the admiration and gratitude that I have for both of you! You both are the wind beneath my wings.

To the faculty and staff I would like to say thank you for your dedication to Greensboro College and all of your students. This is definitely a never-ending journey because GC will always be home to me and becoming a student here was one of the best decisions I have ever made!

Thank You
Jennifer Anne Moore
Editor-In-Chief

MAY THE ROAD RISE UP TO MEET YOU,
MAY THE WIND BE ALWAYS AT YOUR BACK,
MAY THE SUN SHINE WARM UPON YOUR FACE,
AND THE RAINS FALL SOFTLY UPON YOUR FIELDS...
AND UNTIL WE MEET AGAIN,
MAY GOD HOLD YOU IN THE PALM OF HIS HAND.
